MEMO FOR: Walt Elder

SUBJECT: Intelligence Glossary

Sorry about not responding earlier on the CIA query in respect to using the Glossary for the academic community. Think I told you that we had categorized it as "Official Use Only" to preclude its use in a generally irresponsible fashion. In this respect, I believe that CIA should provide its own judgment as to the degree of official business matter each specific release to academia entails. Thus, I would recommend you respond back to them in terms of "you decide on a case by case basis whether it meets the category of official use."
